ROSES, CHRYSANTHEMUMS, PERENNIALS, ANNUALS, VEGETABLE PLANTS

PERKINS BROS.

Stillwater Road • SAINT PAUL 9, MINNESOTA • U. S. Highway 212

Telephone: Viking 1551

Greetings To Our Customers . . .

WE ARE most grateful for your confidence in our stock, and we sincerely hope that our plants and suggestions for helping you to have a better garden will continue to merit that confidence.

During the past year improvements in buildings and grounds have been made at our nursery and more varieties of plants have been added to our list, all with the idea of serving you better. We hope you may find it convenient to visit our nursery this spring.

We always have available a few varieties of plants that are not listed in our catalog, due to very limited quantity. Our garden friends are welcome to come and look over our stock while it is growing in the field. This gives you an opportunity to see the new kinds of plants under trial and makes it easier for many of you to select the varieties you would like to have in your garden.

Roses are always popular, and we have a good selection of varieties for your consideration. On request we have increased our supply of the patented Roses. All our Roses are grown in large paper pots and can be easily planted in your garden without danger of loss.

Dr. Longley of the University of Minnesota is introducing two new varieties of Mums this year. 46-271-12 is a nice white with a yellow center such as is found in Avalanche. 46-176-16 has a beautiful pink, medium-sized fully double flower, and is a free bloomer over a long period.

Wychwood, one of the later additions to the Chicago strain, did very well for us last season. It has a large, clear yellow pompon type bloom.

The two Shasta Daisies Majestic and Double Supreme (only semi-double) were noticeably fine the past year and are worthy of a place in any garden. Both are excellent cutting varieties.

We again have a supply of the Lyondel Hybrid Delphinium. It is a vigorous grower, has large flowers and apparently is hardier than many strains.

The fragrant Garden Pinks and Carnations are always good garden subjects. Perkins Double White Pink, with its neat compact foliage and highly scented flowers, is our finest pink. Dianthus Little Joe with its big crimson flowers is an excellent plant for the edge of your garden. Both Carnations, White Gold and Cynthia, have done very well at our nursery.

Our selection of annuals has been enriched by the addition of several new varieties. We have the new Tetra Snapdragon and the Tetraploid Dianthus Heddensis. Both varieties show more vigor than the regular strains. We also have Burpee's Hybrid Tomato.

The Strawberry Baron Von Solemacher is an interesting novelty. It is a runnerless Strawberry bearing many sweet, small, elongated berries and is recommended for trial and for those who want something different in their garden.

It is easy to get to PERKINS BROS. NURSERIES

We are located on the St. Paul-Stillwater Road, which is a part of Minnesota U. S. Highway 212, about a mile from St. Paul city limits.

To drive to the nursery from St. Paul's business district, take East Seventh Street to East Minnehaha Street, east to East Avenue, Paved road to left (Highway 212).

From St. Anthony Park, take Larpenteur Avenue and Wheelock Parkway to Arcade Street, south on Arcade to Maryland, east on Maryland to White Bear Avenue, south on White Bear Avenue to Stillwater Avenue, east to nursery.

The hourly bus service from St. Paul to Stillwater passes our nursery. Fare from St. Paul, 15 cents.

From Wisconsin points, cross the St. Croix River at Hudson or Stillwater. If crossed at Hudson, go to Stillwater and from there follow Highway 212 to our nursery, or follow U. S. 12 to Tanners Lake, north on Highway 100 to Highway 212, west 1/4 mile.

PERKINS Fine Outdoor ROSES

All our Roses are planted in the large Cloverset pots. These sturdy green plants are easily set out in your garden without danger of wilting or being disturbed.

NOTE: Roses cannot be sent by mail. Due to present high express rates, we recommend that not less than 3 plants be ordered for shipping. Packing charges are 15c for every 3 plants.

BEAUTIFUL EVERBLOOMING HYBRID TEA ROSES

Each \$1.50; 3 for \$4.25; 10 for \$13.00

Ami Quinard. Rich maroon flowers. Sweet Old Rose fragrance. Strong, upright grower.

Autumn. An extraordinarily colored bloom of burnt-orange, streaked red. Long lasting; fragrant.

Briarcliff. (Peters'.) Long-pointed buds opening to handsome, fragrant, silvery pink flowers. Excellent for cutting.

Caledonia. Large, full, pure white flowers on long stems. A healthy, vigorous grower. Fragrant.

Christopher Stone. A fine red variety, producing many fragrant, brilliant, glowing velvety scarlet-crimson blooms of good form.

Condesa de Sastago. A splendid double Rose with coppery pink blooms. Spicy scent. Strong grower.

Etoile de Hollande. One of the finest dark red Roses for general purposes. Very fragrant and a free bloomer.

Golden Dawn. Sunflower-yellow turning to lemon-yellow; Tea Rose fragrance. A profuse bloomer.

Golden Rapture. A splendid yellow Rose of upright growth.

Grenoble. A vigorous grower producing many scarlet-crimson flowers on long stems.

K. A. Viktoria. Pure white, fragrant flowers of good form.

Mme. Butterfly. The rich Indian-red buds open to well-formed flowers of bright pink, apricot and gold.

Mme. Jules Bouche. Long-pointed buds, excellent for cutting. These open to superb fragrant white flowers with a slight shading of blush-pink.

McGredy's Ivory. The large, creamy white flowers, with deeper yellow at the base, are of beautiful form and moderately fragrant. Plant vigorous and disease resistant.

McGredy's Scarlet. Striking scarlet flowers. Plants vigorous, with fine foliage; blooms abundantly.

McGredy's Yellow. Well-formed flowers of bright buttercup-yellow. Bronzy green foliage.

Melody. Flowers pink; full and fragrant. Bushy plant 2 feet tall.

Mrs. Charles Bell. A sport of Radiance. Blossoms salmon-shell-pink, pleasantly fragrant.

Mrs. E. P. Thom. A nice free-blooming, lemon-yellow variety, sweetly scented. Excellent foliage.

Picture. A Rose of medium size but exquisite form. Blooms rich pink with warm undertones of salmon. Plant strong and vigorous.

Poinsettia. Brilliant red. A good grower and a fine cut flower.

President Herbert Hoover. A strong grower. The flowers are a combination of cerise pink, flame, scarlet and yellow.

President Macia. Very long buds. Petals pale flesh-pink with a yellow flush at the base. Fragrant.

Radiance. A vigorous-growing Rose with two-toned pink flowers, shades of carmine and yellow intermingling. Fragrant.

Sister Therese. A very dependable yellow Rose with long-pointed, perfectly shaped buds, streaked with carmine. Open flowers are lovely chrome-yellow.

Talisman. A very popular Rose with multicolored flowers of scarlet, orange and rich yellow. Fragrant and free blooming.

The Doctor. Beautiful silvery pink. Flowers large and intensely fragrant.

Ville de Paris. Upright plants and shapely flowers of rich buttercup-yellow. Fragrant.

ROSE, MCGREDY'S SCARLET

A HYBRID TEA ROSE GARDEN

Patented Hybrid Tea Roses

Charlotte Armstrong. Pat. 455. Foliage leathery, deep green and highly resistant to mildew. Flowers cerise in hot weather and spectrum-red in cool weather. Each \$1.75.

Crimson Glory. Pat. 105. Buds long-pointed. The large, semi-double, deep velvety crimson flowers are very fragrant and long lasting. Foliage abundant and leathery. Each \$1.75.

Diamond Jubilee. Pat. applied for. Color a warm buff-orange. Flowers often 5 to 6 inches across, fully double. Lasts well. Each \$2.25.

Dicksons Red. Pat. 376. Long-petaled flowers of velvety crimson-scarlet. Spicy fragrance. Each \$1.60.

Forty-niner. Pat. 792. A brilliantly colored bicolor Rose. Rich chrome yellow and Orient red. Long-pointed buds. Plant vigorous. Each \$2.75.

Lowell Thomas. Pat. 595. The long slender buds open to lemon-chrome-yellow. Plant vigorous. Each \$1.75.

Mirandy. Pat. 632. Dark green, heavy-textured foliage. Blooms a rich dark red. Fragrant. Each \$1.75.

Peace. Pat. 591. The All-America Rose Selection of 1946. Large yellow buds opening to pale yellow changing to soft rose and later to white with pink scallops. Foliage dark glossy green. Each \$2.25.

Santa Anita. Pat. 539. Long-pointed buds unfolding into beautiful flowers of pure peach-blossom-pink. Color does not bleach out. Plants strong and very free blooming. Each \$1.50.

Floribunda Roses

Hill's Hillbilly. Pat. applied for. The stiff flower stems carry big open heads of medium-sized, single pink flowers. Each \$1.50.

Rosenelfe. Dainty clusters of La-France-pink flowers, suitable for cutting. Each \$1.50.

World's Fair. Pat. 362. Large clusters of velvety rich scarlet flowers. Fragrant. Each \$1.50.

Climbers

Doubloons. Pat. 152. A very good yellow climbing Rose. Glossy foliage; flowers rich gold. Each \$1.75.

Paul's Scarlet Climber. A popular climbing Rose with semi-double, scarlet-red flowers. Each \$1.50.

NOTE: To keep Rose foliage free from disease and eating insects, dust the plants about every 10 days with a mixture of 9 parts dusting sulphur and 1 part arsenate of lead. If troubled with aphids, spray with a nicotine solution, following the instructions on the container.

PAUL'S SCARLET CLIMBER ROSES

NEW CHRYSANTHEMUMS Introduced in 1949

Each 50c; 10 for \$4.50

DR. LONGLEY (Minn. No. 46-176-16)

Plant upright of medium height; flowers largely borne singly on rather long stems making it desirable for cut flowers. Color is Amaranth pink to rose pink; does not fade in hot weather; flowers are large, $2\frac{1}{2}$ to 3 inches or more, full double, very floriferous; blooms early to mid-season and keeps on blooming till frost time. The best Minnesota variety to date.

MOONLIGHT (Minn. No. 46-271-12)

An upright bush variety of low to medium height, bearing large trusses of reflexed flowers, white in color with the center pale yellow to ivory; large, $2\frac{1}{2}$ to 3 inches in diameter; blooms from mid-season to late. Good for cutting when large sprays are desired.

THE MINNESOTA GROUP

Here are offered twenty-four new varieties of garden Chrysanthemums developed by Prof. L. E. Longley at the University of Minnesota. They are admirably adapted to locations subject to early frosts because of their extra early flowering habit, long blooming period, unusual colors and high degree of hardiness. All are suitable for cutting and have long-lasting qualities as cut flowers. Time of planting has some influence on earliness of bloom.

DR. L. E. LONGLEY

We are propagating all varieties of Chrysanthemums originated at the University of Minnesota by Dr. Longley.

Chrysanthemums

The Glory of Your Autumn Garden

All plants from $2\frac{1}{2}$ -inch pots

1941-1946 Introductions

Each 40c.; 3 for \$1.10; 6 for \$2.00

Aurora. A low, compact type of plant. The flowers, borne in masses, are $2\frac{1}{4}$ inches in diameter, and dragon's-blood-red in color, becoming lighter as they age. They resemble those of Harmony, but are larger, more double, and brighter.

Boreas. An early double white. The flowers are about 2 inches in diameter and are produced in great profusion on long stems suitable for cutting. In cool weather the flowers take on a pinkish tinge. The plant is strong and of medium height.

Butterball. Low, compact plant with flowers borne freely on moderately long stems. The flowers are ball-like in form, with rays incurved, $2\frac{1}{2}$ inches in diameter, dark lemon-chrome in color. Starts blooming about August 15. An outstanding variety in our trials.

Chippewa. Bushy plant 20 inches tall or more, with many stems. Flowers aster-purple, $2\frac{3}{4}$ inches across, in large clusters; semi-double to double, aster-like and incurved. Very showy and good for cutting. Early to midseason. A fine variety and very popular.

Dee Dee Ahrens. A tall, upright plant bearing a multitude of flowers on long, slender, stiff stems. Flowers double, 2 to $2\frac{1}{4}$ inches in diameter, pure white. Midseason to late.

Duluth. A rather tall, upright type with semi-double, lemon-yellow flowers 2 inches in diameter. Very floriferous, blooming early and continuing for a long period.

Glacier. A large-flowered type; upright habit with double, clear pure white flowers 3 inches in diameter, carried in loose clusters on long stems. A very good variety.

Harmony. In a general way this would be classed as a bronze-flowered variety, although the color of the flowers on the same plant varies from yellow to Brazil-red. During the early season it is yellowish, later strawberry-pink and with the cool weather it becomes Brazil-red. At times all the colors are present at once. The plant form is similar to that of the Cushion type; flowers $2\frac{1}{4}$ inches in diameter.

Maroon 'n' Gold. This variety forms a rather low plant, bearing the flowers in large trusses. The blooms are large, $3\frac{1}{2}$ inches or more in diameter, full, double, incurved. Rays are Brazil-red to maroon in color above, and golden on the under side. Blooms early and freely. Very popular.

Moonglow. A low, bushy plant with dark green, glossy leaves. An early bloomer having double, deep lemon-chrome flowers $1\frac{3}{4}$ inches in diameter, covering the plant for several weeks.

Pipestone. A low, robust and spreading type of plant with semi-double Brazil-red to pinkish scarlet flowers that reach $2\frac{3}{4}$ inches in diameter. A very free-blooming, early variety.

Purple Star. Very tall and upright in growth, with long stems; floriferous. Bright dahlia-purple flowers, semi-double to nearly double, the rays formed in such a way as to make the flower star-like in appearance; 2 inches in diameter. Blooms over a long period, from midseason to late, and is suitable for cutting.

CHRYSANTHEMUM, VIOLET

Red Gold. Plant medium tall, very stiff and upright. Flowers double, 2 inches in diameter, scarlet to Brazil-red, resembling pompon dahlias and somewhat like Early Bronze Mum, but brighter and more reddish. Early to midseason or later.

Redhawk. Plant upright in habit, of medium height. Flowers are in clusters on long stems, double, with some rays quilled, 2 inches or more in diameter. The color is dragon's-blood-red to Brazil-red. Starts blooming in mid-August.

Red Wing. A low, upright plant with rather long stems. The semi-double, Pompeian-red flowers are $1\frac{3}{4}$ inches in diameter and are produced very freely.

Redwood. A low compact type of plant, bearing semi-double flowers 2 inches in diameter. The color varies from carmine to oxblood. The season is mid-August to frost.

Snowball. The plant is medium in height and loose in habit, with double flowers which are ivory at first, later becoming pure white. The blooms are $2\frac{1}{2}$ inches in diameter. Early.

Sun Red. Medium tall plants with long stems and large, semi-double flowers over 3 inches in diameter. Habit of plant and form of flowers much like Chippewa but color is bright Brazil-red. Blooms sparingly early in the season but very heavily midseason to late. An excellent variety to brighten the late garden.

Violet. Plant rather spreading, recumbent the first year but very stiff and upright and moderately tall the second year. Blooms are fairly abundant. Very full, double flowers, dahlia-like, incurved, deep amaranth-purple to pansy-purple, 3 inches in diameter. Midseason to late.

Waterlily. Plant is upright, narrow, medium tall. Semi-double, white flowers with four rows of rays. Suggests a waterlily in full bloom. Early.

Welcome. One of the earliest to bloom. The plant is irregularly bushy and rather low. The bright mallow-purple flowers on long stems are semi-double and measure $1\frac{3}{4}$ inches in diameter.

1947-1948 Introductions

Bountiful. An upright, spreading type of medium height, bearing large trusses of $2\frac{1}{2}$ -inch, nearly double flowers on long stems; rays narrow, somewhat twisted; color carmine to oxblood. Early to midseason. Holds color well in hot weather and is a very profuse bloomer. Each 40c.

Brilliant. A cushion type, very compact, low and flat in growth, covered with a mass of double, flat flowers with rather narrow rays, bright Brazil-red, $2\frac{1}{2}$ inches in diameter. Resembles Aurora but flowers are more double and brighter red. Midseason. Each 40c.

Silver-Pink. Plant upright in growth, of medium height. Flowers in large clusters on long stems, double, $2\frac{1}{2}$ inches in diameter, soft amaranth-pink to Tyrian-pink with a silvery sheen. Good cut-flower type. Early to midseason. Each 60c.

COLORFUL CHRYSANTHEMUMS *for a Showy Garden*

The Chicago Strain

Each 40c; 6 for \$2.00

Charles Nye. Plant medium height; deep green foliage. Large, 3-inch fully double, rounded flowers of rich buttercup-yellow.

Courageous. Bright dark ruby-red blooms, $3\frac{1}{2}$ inches in diameter. Sept.

Early Harvest. Plant low growing, with double flowers of glowing mahogany-orange, $2\frac{1}{2}$ to 3 inches in diameter. Aug. to Oct.

Glowing Coals. A good early red. Bright cherry-red with orange reverse. Sept.

Harbinger. Double flowers with incurved petals of primrose-yellow. Flowers borne in clusters.

Heatherbloom. Plant vigorous, of medium height. Flowers double, $2\frac{1}{4}$ inches in diameter, heather-pink.

Murmurs. Early. Opens amaranth-pink, aging to mallow-purple. Petals broad and incurved.

Olive Longland. A grand double flower with petals slightly incurved; apricot toned salmon-pink. Sept.

Polar Ice. Clear, glistening blue-white flowers $2\frac{1}{2}$ to 3 inches across; upright stems 20 inches tall.

Robert Brydon. Double, dark garnet-red flowers $2\frac{1}{2}$ inches across. Plant has a dense bushy habit 18 to 20 inches tall. Free blooming.

Southwind. Sturdy branched plants bearing many Chinese-red flowers. Sept.

Tangerine. A 1947 introduction. Double; brilliant Spanish-orange.

Wychwood. A lovely yellow Mum. Flowers fully double, globular, rich clear canary-yellow. Good plant habit.

Zantha. Attractive canary-yellow, ball-shaped flowers.

GOOD POPULAR VARIETIES

From 2½-inch pots. Each 40c.; 3 for \$1.10;

Autumn Sunlight. 30 in. The fully double flowers, borne on long stems, are 2½ inches in diameter and a very brilliant yellow. Blooms the latter part of September.

Avalanche. 2 ft. A desirable early-blooming, large-flowered, double white variety, the center petals being cream-colored. The 3½-inch flowers are borne on strong stems; fine for cutting. Admired by all visitors at our nursery.

Charm. 18 in. Foliage deep green. Fully double, yellow flowers about 2 inches across.

Chris Columbus. 30 in. A new white pompon with yellow buds; long strong sturdy stems. Especially good for cutting. Said to be super hardy. We would class it as late.

Eugene A. Wander. Extra-large, double, glistening yellow flowers on bushy, 18-inch plants. A very popular variety.

Garden Queen. 20 in. A striking combination of large salmon-pink flowers suffused with crimson-rose, 3 inches in diameter. Has done very well at Duluth.

Gold. 30 in. Large, 3 to 4-inch, double flowers of pure gold, blooming about the end of September.

Janet. 20 in. Plant dwarf and spreading, with masses of 3-inch, double incurved, rosy gold flowers.

Major Cushion. Low-growing, compact plants with salmon-pink flowers. Tends to be late but buds are quite frost-hardy.

Margaret Ann. 28 in. An early variety with 3-inch, rosy pink flowers. Sturdy stems.

Peggy. 24 in. Rosy pink flowers 2 inches in diameter. Similar to Heatherbloom. Early. Good for cutting.

Pure Gold. Plants 18 inches to 2 feet tall, having fully double yellow flowers up to 3 inches in diameter. Early.

Pygmy Gold. A dwarf pompon type producing quantities of miniature blossoms. The color is clear golden yellow. Commences to bloom in early September.

Red Velvet. 2 ft. A fine full double crimson Chrysanthemum. Late September.

September Bronze. Pompon blooms with the warm bronze tints of autumn; petals have a golden edge.

CHRYSANTHEMUM, EUGENE A. WANDER

September Dawn. Large, double, rose-pink flowers. September.

Sunapee. 24 in. From the University of New Hampshire. Fully double, rich gold pompon flowers on good stems. Early.

Yellow Avalanche. Similar to Avalanche but clear soft yellow.

41-78A-35. A low-growing plant that blooms early and freely. Spoon-type flowers of a pink shade.

5302. Large, bushy plants about 2 feet tall, spreading. The single flowers, nearly 3 inches in diameter, are of a beautiful salmon-pink with yellow center. Many have two rows of petals. Starts blooming in September. Made an unusually attractive display at our nursery.

45-262-2. A plant of medium height with good-sized flowers; fully double, clear yellow. In cool weather the flowers are bronzy yellow.

Low-Growing Cushion Chrysanthemums

Each 35c.; 5 for \$1.50

Bushy plants of low to medium height, producing an abundance of flowers. These varieties are also sold under popular "trademark" names.

Pink Yellow Bronze Early Red White

Plant Chrysanthemums
about 18 inches apart each way

CUSHION CHRYSANTHEMUMS

Chrysanthemum Collection

Your choice of any 10 or more varieties at 10% less than the regular price per plant.

Chrysanthemum Special

We start many varieties of Chrysanthemums in 2-inch pots and offer these smaller blooming-size plants at

20c. each, cash and carry
6 for \$1.40 if sent by mail

(Not less than six sold)

Colors available: Bronze, Pink, Purple, Red, White, Yellow. All plants will be named.

Cushion Mums are included in this offer but will not be sent unless requested. (Only regular 35c and 40c varieties in this offer).

Perennials . . .

CHOICE AND SELECTED VARIETIES

Achillea (Yarrow)

Ptarmica, Snowball. 18 in. June to Sept. An improved small, double-flowered white Yarrow growing in ordinary soil. Suitable for cutting, and is fine as a filler in bouquets. Each 40c.

Aconitum (Monkshood)

Fischeri. 2 to 3 ft. Sept. Blue flowers shaped like a monk's hood. The plant prefers a rich soil and will grow in sun or shade but the flower will last longer in a shady place. It needs some winter protection. As Aconites contain poisonous substances, they should be kept away from children. Each 50c.

Alyssum (Basket of Gold)

Saxatile compactum. 1 ft. One of the earliest flowering plants; suitable for the border or the rock-garden. It has bright spreading clusters of golden yellow flowers. Foliage gray-green. When ripe the seed-pods have a lace-like appearance and may be used in winter bouquets. Each 40c.

Anchusa (Alkanet)

Dropmore Variety. 3 to 5 ft. Blooms in early summer and later if first flowers are cut as soon as wilted. Foliage rough and hairy, slightly gray. Flowers rich gentian-blue, in loose panicles. A rather coarse-appearing plant but fine in masses or as a border. Does best in partial shade. Each 40c.

Myosotidiflora. A dwarf form from Russia. Clusters of large leaves and bright blue, forget-me-not-like flowers. Each 50c.

Anemone (Pasque Flower)

Pulsatilla. 1 ft. A lovely harbinger of spring. Deep blue, bell-shaped flowers, followed by tasseled seed pods which are decorative in themselves. Good drainage is necessary. Add some crushed oystershell to provide lime. Each 40c.

Anthemis (Yellow Daisy)

Moonlight. 2½ ft. A choice variety of the hardy Marguerite producing pale yellow flowers over 2 inches in diameter, all summer. Each 40c.

AQUILEGIA, MRS. SCOTT ELLIOTT'S HYBRIDS

Aquilegia (Columbine)

Blue King. Large flowers of medium blue. Each 40c.

Clematiflora. A spurless Columbine with beautiful open flowers like Clematis. Mixed colors. Each 40c.

Crimson Star. A dwarf variety with large crimson and white flowers. Each 40c.

Longissima. Yellow flowers with very long spurs. Each 40c.

Mrs. Scott Elliott's Hybrids. A refined long-spurred strain. Includes many choice clear colors. Each 40c.

Arabis (Rock Cress)

Alpina, Snowcap. 6 in. A low-growing plant especially suited for edging or the rock-garden. Foliage is gray-green. In early spring the plant is covered with masses of white flowers. Can be used for cutting. Each 40c.

Rosea. Similar to above. Flowers pink. Each 50c.

Armeria (Sea-Pink)

Armerias prefer dry sandy soil in a sunny location.

Lauchena. A tufted plant with grass-like leaves and bright rosy flowers all summer. Low growing. Each 40c.

Bees' Ruby. Bright rosy red flowers. Each 40c.

Asters (Michaelmas Daisies)

Blooming-size plants from 2½-inch pots.

Adorable. 4 to 5 ft. Sept.-Oct. A hardy Aster with habit and growth similar to that of Harrington's Pink. Flowers salmon-pink. Each 40c.; clumps 60c.

Beechwood Charm. A semi-dwarf variety with small, brilliant crimson flowers which completely cover the plant. Very showy. Each 40c.

Blue Gown. 3 to 4 ft. Flowers medium blue, on tall arching stems. Each 35c.

Blue Plume. Rich deep purple, nearly double flowers. Suitable for cutting. Each 40c.

Climax. 5 ft. One of the best, with pyramidal spikes of light blue flowers. Can be used as a cut-flower. Each 40c.

Crimson Beauty. A new large-flowered crimson-red Aster. Each 40c.

Dr. Eckener. Another new red Aster from Holland. Each 40c.

Hilda Ballard. Large flowers of beautiful opalescent mauve. Each 40c.

Lavender Giant. 4 ft. Early Sept. Large lavender-blue flowers. Each 50c.

Little Red Boy. 18 in. Compact plants completely covered with red flowers in September. Each 50c.

Mt. Everest. 3 to 4 ft. An outstanding white Aster. Each 40c.

Palmyra. Medium height; semi-double, pure pink flowers making up into perfect pyramids. Each 40c.

Pink Party. One of the best pink Asters. Florets form a prolific, pyramidal head. Each 40c.

Prosperity. New. Large rose-pink flowers in September and October. Each 50c.

Purple. 5 ft. Large purple flowers. Large clumps 40c.

Violetta. 2 ft. During September the plant is completely covered with semi-double, deep rich blue flowers. Each 50c.

Artemisia (Sage-Brush)

Lactiflora. 3 ft. Aug.-Sept. A tall-growing plant with finely cut foliage and heads of fragrant white flowers. Good for cutting. Each 40c.

Silver Beauty. 3 ft. A white-leaved plant used for contrast. The silvery flowers are fine in bouquets, and may be dried for winter use. Each 40c.

Astilbe

Fanal. 1 to 2 ft. Feathery spikes of fiery crimson flowers in May and June. Foliage attractive and good looking at all times. Each \$1.00.

Gloria. 1 ft. A beautiful low-growing variety producing many spikes of pink flowers. Each 50c.

Baptisia (False Indigo)

Australis. 3 to 4 ft. Forms a spreading bush with dark bluish green leaves and bears lupin-like, blue flowers. The seed-pods may be used for winter bouquets. Perfectly hardy. Each 40c.

Boltonia (False Chamomile)

The Boltonias are of easy culture, growing in any soil and even in partial shade. To produce large flowers divide the clumps every three years, or cut out some of the stems in the spring. The head of the plant is wide spreading and bears many single aster-like white flowers. 3 to 4 ft. high. Each 40c.

Callirhoe (Poppy Mallow)

Involucrata. A spreading, vine-like plant with small poppy-like, crimson flowers. Not over-hardy. Each 40c.

Campanula

Carpatica Hybrids. Harebell. 1 ft. A very satisfactory flower for the rockery or edge of the hardy border. It is perfectly hardy, and will grow in either sun or shade. The bell-shaped flowers are borne on long slender stems from early summer until frost. Each 40c.

Persicifolia, Telham Beauty. 30 in. One of the choicest Campanulas, with large light blue flowers. We find that there is some variation in color in stock grown from seed. Each 50c.

Wedgewood. 30 in. Similar to the above. Large, violet-blue flowers. Each 50c.

Carnation

Cynthia. June until frost. A new Carnation for the garden, free flowering and fine for cutting. Pure shrimp-pink, waxy petals, entirely smooth at the edges. 2½-in. pot size, each 40c.

Crimson King. A green-leaved double red Pink or garden Carnation; blooms all summer. Only semi-hardy but a very satisfactory plant. Each 30c.

Pink Princess. 1 ft. Salmon-pink flowers; clove scented. 2½-in. pot size, each 40c.

White Gold. Regular Carnation foliage with well-formed heads of white gold. Blooms all summer. Long stems for cutting. Each 40c.

Coreopsis

Lanceolata grandiflora, Mayfield Giant. 2 to 3 ft. Large, bright yellow daisy-like flowers on long stems all summer. Each 40c.

Verticillata, Golden Shower. 18 in. This semi-dwarf, golden yellow Coreopsis is always in bloom. Flowers 2 inches in diameter. Each 40c.

Centaurea (Knapweed)

Dealbata. 18 in. Rose-pink flowers. Graceful, silvery leaves. Each 40c.

Macrocephala. 3 to 4 ft. July-Aug. A rugged, upright-growing plant, bearing large thistle-like golden yellow flowers. May be used as cut-flowers. Each 35c.

Cerastium (Snow-in-Summer)

Tomentosum. Low-growing edging plant or for the rock-garden. Silvery white foliage with white flowers. Each 40c.

White Daisies

Alaska. 2 to 3 ft. Summer. One of the best Shasta Daisies. Large white flowers, 4 to 5 inches in diameter, on long stems. Each 35c.

Diener's Giants. A mixture of large single and double Daisies. Field clumps, each 40c.

Floradale. 2 ft. The petals are shredded, quilled and gracefully incurved. Mostly semi-double. Each 40c.

New White Daisies

From 2½-inch pots

Double Supreme. A fine semi-double Daisy of good substance. Flowers 3½ inches, on 24-inch stems. Each 40c.

D. 1. A selected Daisy having several rows of narrow and cut petals, giving a somewhat shaggy appearance. Flowers 3 to 4 inches in diameter, with yellow center. Each 50c.

Edgebrook Giants. One of the largest new Shasta Daisies. The single blooms are 6 to 7 inches in diameter on good stems. Free flowering. Each 60c.

Giant Chiffon. Pure white, fully double flowers. A dwarf variety for front of border. Each 50c.

Majestic. Large white flowers, 5 to 6 inches in diameter, on straight long stems. A healthy grower. Each 50c.

Beautiful Delphiniums

Giant Pacific. This is an American production, noted for its long spikes and huge flowers of fine texture and color. It is more resistant to disease than many other strains. 1-year-old plants.

Galahad. Pure white. Each 40c.

Guinevere. Light pink-lavender with white bee. Flowers 2½ to 3 inches in diameter. Each 40c.

King Arthur. Royal-violet with white eye. Each 40c.

Summer Skies. Light blue with white bee. Flowers medium size. Very prolific. Each 40c.

Mixed Shades of Blue. Each 40c.

Blackmore & Langdon. An unsurpassed strain of English hybrid Delphiniums. Every plant produces an excellent spike of flowers. The color-range is fine and the colors are clear and bright. There is a good proportion of large double and semi-double flowers. Each 40c.

Belladonna, Cliveden Beauty. 2 to 3 ft. An improved strain of this ever-popular light blue Delphinium. The flowers are not as large as in the hybrid strains, but the plant bears many more spikes of flowers. Each 40c.

Bellamosum. Dark blue, similar to Belladonna. Each 40c.

Lamartine. 2 to 3 ft. Marine-blue with white eye. Each 40c.

Lyondel Hybrids. 4 ft. A new strain with massive spikes of large flowers in a wide range of beautiful colors. Plants very vigorous. 1-year-old plants, each 50c.

Wrexham or Hollyhock Strain. A well-known English strain of hybrid Delphinium. Mixed colors. Each 40c.

DICENTRA SPECTABILIS

Dicentra (Bleeding-Heart)

Spectabilis. 1 to 2 ft. Spring. Favorite hardy perennial plants with deeply cut foliage and long racemes of graceful pink heart-shaped flowers. Needs part shade. Each 85c.

Eximia. Plumy or Fern-leaved Bleeding-Heart. 15 in. Pink blooms all summer. Foliage finely cut and very attractive. Plant in a shady place away from strong wind. Each 50c.

Formosa, Sweetheart. Plant similar to Eximia. The white flowers are delicately fragrant, on 15-inch stems. Plant in a shady place. Each \$1.50.

Dianthus, Old Spice

(Pat. 499)

A choice hybrid old-fashioned garden Pink with outstanding qualities. Its habit of growth is neat and cushion-like; flower stems about a foot tall. The beautiful double carnation-like flower is a choice salmon-pink and very fragrant. Blooms profusely. Each 60c.; 3 for \$1.50.

Dianthus (Pinks)

The delightful sweet-scented garden Pinks are always welcome in any garden. They are easy to grow and give a large number of flowers for cutting.

Deltoides. Maiden Pink. Small delicate blooms carried above fine feathery foliage. Suitable for edging or the rock-garden. **Pink; White with Red Eye.** Each 40c.

Jock Hybrids. A low-growing double-flowered Pink. Blooms very profusely. Color deep pink. Each 40c.

Perkins' Double White Pink. Blue-green foliage. Flowers double, 2 inches in diameter, white, slightly speckled with red in the center. Fragrant. Blooms most of the season. Each 50c.

Plumarius semperflorens. 1 ft. An everblooming hardy garden Pink. Blooms most of the summer. Double and single flowered. Mixed colors. Each 40c.

Wallace Red. Semi-double, brilliant crimson-red flowers on 8 to 12-inch stems. Blooms all summer. Sturdy, compact growth. Potted plants, each 40c.

New Dwarf Pinks

Bobby. 8 in. A compact-growing gem with glaucous foliage and large flowers of deep pink with crimson eye. Each 40c.

Little Joe. 6 in. A fine free-blooming dwarf Pink with large crimson blossoms. Each 40c.

Tiny Rubies. The miniature plants produce carnation-like pink flowers on stems 4 to 5 inches high. Each 40c.

Special Collection of Pinks

1 each of the new dwarf Pinks, \$1.10

Edelweiss

6 in. A low edging plant densely covered with whitish wool. The small yellow flowers are surrounded by a star-like cluster of woolly floral leaves. Plant in well-drained soil in a sunny exposure. Each 40c.

Euphorbia (Spurge)

Polychroma. 1 ft. A formal plant forming a hemispherical clump with yellow flowers in June. Each 50c.

Funkia (Plantain-Lily)

Lanceolata. Aug.-Sept. Suitable for shade or sun. Flowers lavender. Each 35c.

Spp. Similar to the above but with larger, wider leaves and large flowers on stems 3 feet tall. Each 40c.

Subcordata grandiflora. Aug. Large leaves; pure white, lily-shaped flowers. Plant in shade. Each 50c.

Thomas Hogg. New. A strong-growing variety for shade or sun. Likes moisture. Large clear leaves with a silver edging; lavender flowers. Each 40c.

Variegata. Variegated foliage and lavender flowers. Each 40c.

Gaillardia (Blanket-Flower)

Showy, very free-blooming perennials, growing from 2 to 3 feet tall.

Dazzler. Large golden yellow flowers; rich maroon center. Each 40c.

Goblin. A dwarf variety of Gaillardia. Plant vigorous, with many showy, deep red flowers with yellow border. Each 40c.

Monarch Strain. A large-flowered strain. Each 40c.

Portola Hybrids. The flowers are very large, brilliant scarlet intensified by golden yellow tips. Each 40c.

Year-old plants, mixed varieties, blooming size, 10 for \$1.25

Gypsophila (Babys-Breath)

Bristol Fairy. We recommend this choice double-flowered variety as being far superior to the common single Babys-Breath. Blooms all summer. Established plants are about 3 feet in diameter when in bloom. Large plants, each 75c. Small plants, each 50c.

Mangini. Masses of large and pretty pink and white flowers, valued for misty border effects. Earlier than Oldhamiana. Each 40c.

Oldhamiana. Tangles of airy, misty light pink blossoms with white throat. Florets $\frac{1}{4}$ inch in diameter. Blooms in fall. Each 40c.

Oldhamiana, Flamingo. A double variety similar to Bristol Fairy, with pale pink flowers. Blooms later than Bristol Fairy. Each \$1.00.

Rosy Veil. A dwarf pink continuous-blooming Babys-Breath. Each 50c.

Snow White. An improved single-flowered type and more lasting. Each 40c.

Geum (Avens)

Fire Opal. Dazzling orange-scarlet flowers often 3 inches across, produced abundantly. Very hardy. Each 50c.

Wilton Ruby. Rich ruby-red flowers. Each 50c.

Heliopsis (Orange Sunflower)

Lemoine's Giant. 3 ft. A very brilliant border plant resembling a small sunflower. Bright yellow flowers, single to double. Blooms over a very long period and makes a good display in the border. Suitable for cutting. Each 40c.

Heuchera (Coral-Bells)

Perkins Red. A good red variety. Each 50c.

Sanguinea. 1½ ft. July-Aug. Crimson-scarlet flowers. Each 40c.

Isatis (Golden Babys-Breath)

Glauc. 2 to 4 ft. Foliage silvery gray-green. Cloud of fine yellow flowers in July. Each 35c.

Lathyrus (Everlasting Pea)

Latifolius. A vine-like plant with large racemes of sweet-pea-like flowers. Each 40c.

Lavandula (Lavender)

Munstead Strain. Used in making sweet bags and sachets. Large, sweet-scented blue flowers in abundance. Early blooming. Each 50c.

Liatris (Kansas Gayfeather)

A clump of Liatris with its characteristic grass-like leaves and 5-foot spikes terminated with purple flowers in August will help to make your garden different. Each 40c.

Linum (Flax)

Perenne. Blue Flax. Bush-like plants for an open, warm place. Plant early for best results. Produce an abundance of blue flowers daily throughout the summer, which usually close about noon. Very showy when planted in masses. Each 40c.

Lupinus (Lupine)

Russell Hybrids. 3 to 5 ft. Long beautiful spikes of flowers. Many colors. Each 40c.

Lythrum (Loosestrife)

Morden's Pink. A choice member of the Lythrum family. The flower spikes are a lovely clear pink that blends well with the other colors in the garden. Will grow in wet or dry places. Each 50c.

The Beacon. 3 ft. July-Sept. Long-lasting spikes of large clear deep rosy red flowers. Each 50c.

Mertensia (Virginia Bluebells)

A beautiful early-blooming plant, with blue bell-like flowers fading to pink. Foliage disappears during the summer. Potted plants. Each 40c.

Myosotis (Forget-Me-Not)

6 in. Everyone is familiar with the charming bright blue flowers of the Forget-Me-Not. They prefer partial shade and plenty of moisture. Blooms all summer. Each 40c.

Nepeta (Ground Ivy)

Mussini. A good plant for permanent edging. Foliage soft gray-green. Lavender, spike-like flowers. Each 40c.

Nierembergia (Trailing Cup-Flower)

Rivularis. A charming dwarf creeping alpine plant, bearing large, creamy white, cup-shaped flowers all summer. Give plenty of water in dry weather. Each 40c.

Papaver (Oriental Poppies)

All Poppies are in Cloverset pots. (Cannot be sent by mail.)

Betty Ann. Crinkled flowers of La-France-Pink. Each 50c.

Cerise Beauty. Deep rose-pink. Each 50c.

Gold of Ophir. Golden orange. Each 50c.

Hybrids, Large-flowered. Mixed colors. Each 50c.

Pardanthus (Blackberry-Lily)

Chinensis. An odd and unusual perfectly hardy perennial with green iris-like leaves. The small, daintily black-spotted orange lily-like flowers are borne on 24-inch stems. Seedpods, when ripe, resemble blackberries. Each 40c.

Platycodon (Chinese Balloon-Flower)

Grandiflorum. The Chinese Balloon-Flower gets its name from the interesting balloon-shaped buds which open into large bells. It blooms during the summer when there is likely to be a scarcity of flowers. The blooms are borne on 2 to 3-foot spikes and last a long time. All dead blossoms should be removed. As the Platycodons do not start growth until late in the spring, part of the old stem should be left on in the fall when cleaning the garden or a stake should be placed near it. This will prevent destroying the plant when working in the garden early in the spring. **Blue, White or Shell-Pink.** Each 40c.

Physostegia (False Dragonhead)

Summer Glow. Good plants for the sunny border; of easy culture. The deep pink flowers are borne on terminal spikes, and will last a long time when cut. Each 40c.

PARDANTHUS (BLACKBERRY-LILY)

LYTHRUM

Pentstemon (Beard-Tongue)

Garnet. A large-flowered dark red Pentstemon, blooming continuously until frost. Keeps well as a cut-flower. Needs winter protection. Not hardy in Minnesota except under ideal conditions, but is worthy of a place in your garden and should give an abundance of flowers the first season. Each 50c.

Firebird. Similar to the above except in color, which is a beautiful ruby-crimson. Each 50c.

Primula (Primrose)

Old-time garden favorites. Primroses prefer a situation protected from noon and afternoon sun and drying winds. Coolness, some shade, ample moisture, and medium light woodland soil gives best results.

Mixed Varieties. Each 40c.

Pyrethrum (Painted Daisy)

Showy daisy-like flowers on long stems. Suitable for cutting.

Robinson's Dark Crimson. A choice large-flowered, crimson Painted Daisy. Each 40c.

Rose. Mixed shades of pink. Each 40c.

Spring-blooming Phlox

PHLOX subulata. Moss Phlox. A very attractive and satisfactory plant for the rockery or edge of the hardy border. Plant in groups of 3 to 6 plants and you will have a fine display of color about the end of May. Will grow in partial shade. **Rose, White and Purple.** Each 40c.

Summer-flowering Phlox

Groups of Phlox are especially useful for keeping your garden cheerful and colorful during the summer.

Africa. Brilliant carmine-red with blood-red eye. Well-shaped flower heads; large florets. Each 45c.

American Beauty. Deep rose. Each 40c.

B. Comte. One of our standard Phlox. Flowers a rich dark amaranth-red. Each 40c.

Border Queen. An outstanding dwarf Phlox with large florets of watermelon-pink. Has been very satisfactory in our garden trials for several years. Each 45c.

Charles H. Curtis. A new Phlox of great merit. A strong grower with good clean foliage; flowers sunset-red. Each 45c.

E. A. Farrington. A popular salmon-pink Phlox. Each 40c.

Enchantress. Bright salmon-pink with dark eye. Each 40c.

Flash. Crimson-red. Each 40c.

Graf Zeppelin. White with a vermilion-red eye. Each 40c.

Lillian. A beautiful early salmon-pink. Each 40c.

Mary Louise. Pure white flowers, very large. Clean foliage and a prolific bloomer. Each 45c.

Miss Lingard. The best early white; pale pink eye. Continuous blooming throughout the summer. A most desirable variety. Each 40c.

Mrs. Jenkins. A standard late-blooming clear white. Each 35c.

Rheinlander. Fine old-time variety. Salmon-pink. Each 35c.

Ruby Lee. 2 ft. Large plum-red flowers. Healthy, vigorous growth. Each 50c.

Ranunculus (Double Buttercup)

An upright double yellow Buttercup, blooming in early June. Flowers similar to the double feverfew. Good for cutting. Each 35c.

Rudbeckia (Coneflower)

Golden Glow. 6 ft. A good plant for the rear of the garden. Bright yellow flowers similar to small double chrysanthemums. Each 35c.

The King. An improved purple Coneflower with broad, deep crimson-red petals and rich coppery bronzy cones. Each 50c.

Salvia

Pratensis. 2 ft. Showy dark blue flowers in June. Each 40c.

Scabiosa (Pincushion-Flower)

Caucasica. 18 in. Lovely daisy-like flowers of a soft shade of lavender. Each 35c.

Sedum (Stonecrop)

Spectabile, Brilliant. 1½ ft. This group of Sedums with its thick heavy stems, leaves and flowers offers a strong contrast to other garden plants. Foliage light green; flowers deep rose-pink. Keep a long time as a cut-flower. Each 40c.

Spectabile variegatum. Foliage variegated green and white. Each 40c.

Spurium. A low-growing Sedum suitable for ground-cover or the rockery. Red flowers in July. Each 35c.

Statice (Sea-Lavender)

Latifolia. 2 ft. Summer. The leathery leaves form a tuft at the ground from which arise several stems bearing numerous small lavender flowers similar to Babys-Breath. Give full sunlight. Flowers may be dried and kept a long time. Each 40c.

Thermopsis (Yellow Lupin)

Caroliniana. A good yellow accent plant. Spikes of yellow pea-like flowers in June. Each 40c.

Thalictrum (Meadow-Rue)

Adiantifolium. 2 ft. A plant grown largely for its maidenhair-fern-like foliage. Small white flowers in June. Each 40c.

Tradescantia

Purple Dome. Tradescantias bloom over a long period. They do not need any particular care; insects do not bother them. Foliage is decorative. Purple Dome is a fine grower and blooms freely. Flowers are brilliant purple. Each 40c.

Verbascum

Phoeniceum Hybrids. 2 ft. The plant consists of a group of basal leaves from which arise graceful spikes of flowers. Mixed colors. Each 40c.

Veronica (Speedwell)

Bluespire. 2½ ft. July-Aug. An improved form of *V. spicata*. The Speedwells make excellent plants for the sunny border. Long spikes of blue flowers. Very hardy. Each 40c.

True Blue. 1 ft. June. A dwarf form of Speedwell covered with striking blue flowers. Each 40c.

Vinca (Trailing Myrtle)

Minor, Bowles' Variety. An excellent ground-cover plant with dark green glossy leaves and blue flowers. Each 40c.

Viola

Catherine Sharp. A splendid blue Viola for the garden. Flowers large, on long stiff stems. Blooms very freely. Does well in light shade. Small plants, doz. 75c.

For That Shady Spot

Aconitum
Ageratum
Unwin Dahlias
Dicentra eximia

Forget-Me-Not
Funkia, all varieties
Tradescantia

HEMEROCALLIS • Daylilies

Use Daylilies freely in your garden. They probably possess more good qualities than any other group of flowers. The iris-like leaves and graceful flowers on long stems will add charm to any garden or shrubbery border. They are very hardy and bloom freely when established. The blooming period lasts from two to four weeks for each variety. They will thrive on any soil with good drainage, in sun or partial shade, and require but little attention. Daylilies are not bothered with insect pests or diseases.

Circe. (Stout.) 36-48 in. July. Soft lemon-yellow flowers of medium size. Each 40c.

Dr. Regel. 24 in. May. Handsome rich orange-yellow flowers. Each 40c.

Gold of Ophir. 4 ft. July-Aug. Waxy golden yellow flowers on strong stems. Dark green foliage. Long period of bloom. Each 40c.

Gloriana. 3½ ft. June. Large, clear orange flowers. Each 60c.

Hyperion. 4-5 ft. July-Aug. A very beautiful soft yellow-flowered, fragrant Daylily. Plant vigorous. Each 50c.

Imperator. 40 in. July-Aug. An English hybrid, with star-shaped flowers 6 to 7 inches in diameter. Rich orange-red with clear yellow throat. Each 40c.

Kwanso. 4 ft. July-Aug. Vigorous-growing plant with rich orange-colored double flowers. Each 40c.

Mikado. 36 in. June-July. Orange flowers with a mahogany-red spot on each petal. Each 40c.

Modesty. 36 in. June-July. Medium-sized flowers of a glorious shade of chrome yellow. Each 50c.

Mrs. W. H. Wyman. 42 in. July-Aug. Lovely light lemon-yellow blooms. Each 40c.

Old Ivory. 3 ft. June-July. Jersey cream shade; a delicate flower slightly whorled. Each \$2.00.

Rajah. 3½ ft. July-Aug. Large, gaily colored English red blooms, with conspicuous eye-zone; throat pale orange. A heavy bearer. Each 85c.

Serenade. 4 ft. June-July. Light shade of yellow and pink. Petals twisted and crinkled. Flowers medium size. Each 85c.

Sunset. 42 in. July-Aug. Bright crimson-maroon flowers with deep yellow throat. Each 60c.

BORDER OF HEMEROCALLIS

LOVELY ANNUALS *for continuous bloom*

All annuals are flat-grown plants, once transplanted and will give splendid results

Except where noted, all are 40c. per doz. By mail, 45c. per doz.

AGERATUM, MIDGET BLUE

AGERATUM

Blue Perfection. A tall variety for cutting, supplying dense heads of fluffy, light blue flowers so necessary in many bouquets.

Midget Blue. A uniform dwarf Ageratum that produces an abundance of blue flowers. Excellent for edging your garden.

Riverside. A very choice dwarf Ageratum for edging. Blue flowers grown from cuttings. 4 for 25c.; doz. 70c.

ALYSSUM

Little Gem. The ideal white-flowered edging plant. The plants are completely covered with snow-white bloom.

Violet. Similar to the above except in the color of the flowers. Shear off the dead blooms occasionally.

ANTIRRHINUM (Snapdragon)

Selected varieties of the ever-popular Snapdragon in the following colors: **Pink, Light Pink, Red, White, Yellow and All Colors Mixed.**

Tetra Snapdragons. A new group of Snapdragons with larger, stronger and huskier flowers. Doz. 50c.

ASTERS

Giant Branching. Wilt resistant. Mixed colors.

COSMOS

Sensation. A very large-flowered variety. Blooms are larger if disbudded. **White and Mixed Colors.**

LOBELIA

Crystal Palace. Bushy plants covered with small, dark blue flowers. Foliage has a reddish tinge. A very popular edging plant. **Deep Blue with White Eye.**

MARIGOLDS

Easily grown on any soil and offering an abundance of cut flowers.

Guinea Gold. 2½ ft. Carnation-flowered type producing flowers 2 to 2½ inches across, of brilliant orange flushed with gold. Very choice.

Mammoth Mum. 2½ ft. The light sulphur-yellow flowers are fluffy and ball-like in form, 3½ inches across.

Yellow Supreme. 2 to 2½ ft. A large bloom of rich lemon-yellow. Broad, loose, frilled petals and honey fragrance. A superior variety.

5 Choice Dwarf Varieties

Cupid. Primrose-yellow.

Scarlet Glow. One of the reddest Marigolds.

Sunkist. Golden orange, anemone-type flowers.

Spry. Extra dwarf. Golden yellow, bordered maroon.

Yellow Pygmy. Double; lemon-yellow.

PETUNIAS

Bedding. Very easy to grow, requiring little attention and giving a mass of color in the garden all summer long. In separate colors: **Blue, Deep Pink, Light Pink, Salmon, Red, White, Rosy Morn,** and **All Colors Mixed.**

Dwarf California Giants. Large ruffled flowers in various color combinations. This strain needs good soil and more care than the regular bedding Petunias.

Balcony Petunias

Large-flowered Petunias especially adapted for window boxes but also very fine in the garden. The long stems make them suitable for cutting. **Blue, Pink, White** and **Mixed Colors.**

ANNUAL PINKS

Heddensis. A new tetraploid variety having large flowers on long stems. **Mixed Colors.**

Westwood Beauty. Red shades.

PORTULACA (Moss Rose)

An excellent low-growing plant for a hot dry place. Our strain contains both single and double flowers in a wide color range.

SALVIA

Red. Early and late varieties. Spikes of bright red flowers in fall.

Blue. Light blue spikes. Fine for cutting.

SCABIOSA (Pincushion-flower)

Fast-growing annuals and an important cut flower. Medium-sized flower heads on long, graceful stems.

Mixed Colors.

VERBENA

Low-growing, colorful annuals suitable for edging or mass bedding. **Mixed Colors.**

ZINNIA

Dahlia and Giant-flowered. Separate colors: **Deep Rose, Soft Pink, White, Orchid-Lavender, Red, Yellow, All Colors Mixed.**

Pumila. Medium-sized flowers in three choice colors: **Salmon-Rose, White, Soft Yellow.**

Lilliput. Small flowers. Very free blooming. **Salmon-Rose, Red, Yellow.**

PERKINS JUMBO PANSIES

A selected strain of very large Pansies in a fine mixture of colors. Doz. 75c.

Potted Annuals

Everblooming Dahlias, Unwin Hybrids. Dainty small-flowered Dahlias with single to double blooms in a great profusion of color. Prefers partial shade. Each 25c.; doz. \$2.50.

Morning-Glory, Heavenly Blue. Huge, cheer-giving, light blue flowers in great profusion. 3 plants to a pot. These should not be separated. Each 40c.

Petunias, California Giants. Mixed colors. Each 25c.; 6 for \$1.25.

Packing and Postage on potted plants,
10c. each; 2 for 15c.

NOTE: We will also have a nice assortment of potted plants suitable for window-boxes and cemetery planting.

All prices in this catalog are subject to change
